(54) RACK-TYPE FILTER

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a rack-type filter which ensures a stable cross flow filtering operation in spite of the fact that the operation is difficult to perform by the use of a conventional rack-type hollow fiber membrane cartridge module, and can attach a cartridge module having an adhesive layer of an optional length, and has a low cost rack-type housing.

SOLUTION: A circulating water flow channel 12 of such a type as encircling the outer upper part of a vessel wall is provided, through a communicating hole 14, on the outer peripheral side part of a housing body 4 of the rack-type filter 1.
